

IN-HOME RESPITE

In-Home Respite (IHR) is a program for children and adults with intellectual and developmental disabilities who live in the family home. We provide a needed break to families so that clients can remain in their family home. We serve the greater Sacramento Metropolitan regions.

I appreciate the way On My Own works diligently to make sure that my daughter always has support coverage. She really enjoys the company of the staff, we both look forward to them being here!
